

Business Insights 360

Transforming Business Data into Strategic Decisions

Power BI • SQL • Excel • DAX • Power Query

By Makam Lakshmi Sujatha

A 360° Business Intelligence solution designed to help stakeholders make faster, data-driven decisions across finance, sales, marketing, supply chain and executive reporting.

About Me

Hi, I'm **Makam Lakshmi Sujatha**, an aspiring Data Analyst with a degree in Computer Science Engineering. I specialise in turning fragmented business data into clear, actionable insights through interactive dashboards and storytelling.

Technical Skills

SQL • Power BI • DAX • Power Query • Excel

Analytical Skills

Data modelling • ETL • KPI design • Statistical analysis

Business Impact

Dashboard design • Storytelling • Stakeholder communication

The Business Challenge

Organisational data is often siloed across departments, making it hard to form a unified view of performance. Decision latency and misaligned metrics reduce agility.

Business Insights 360 consolidates Finance, Sales, Marketing, Supply Chain and Executive reporting into a single interactive experience — enabling faster analysis, aligned KPIs and better collaboration.

- ❑ Single source of truth: consistent metrics and cross-functional visibility for faster, confident decisions.

Finance Dashboard

Business question: Are we achieving our financial goals?

Compare Actual vs Benchmark

Visuals highlight variances so finance can prioritise actions.

Monitor Core Metrics

Net Sales • Gross Margin • Net Profit
across fiscal periods.

Trend & Profitability Analysis

Rolling trends and cohort views reveal improvement opportunities.

Business impact: Enables finance teams to monitor performance, detect early risks and drive strategic decisions with confidence.

Sales Dashboard

Business question: Which customers and products drive the highest revenue?

Identify Top Customers

Focus on key accounts and growth opportunities to prioritise sales effort.

Compare Product Performance

Track revenue and margin contribution across products to optimise the mix.

Analyse Trends by Region

Review regional patterns, channels, and seasonality to uncover demand shifts.

Business impact: Focus sales efforts on profitable segments and optimise product mix to increase revenue.

Marketing Dashboard

Business question: Which markets and segments perform best?

Compare Market Performance

Assess regional results, channel ROI, and campaign efficiency to understand where marketing is strongest.

Analyse Customer Segments

Review audience groups, lifetime value, and conversion patterns to refine targeting and messaging.

Spot Growth Opportunities

Identify untapped segments, product demand, and lift potential to improve spend allocation.

Business impact: Inform smarter allocation of marketing spend and improve campaign targeting.

Supply Chain Dashboard

Business question: How efficiently are customer demands being fulfilled?

Forecast Accuracy

Measure demand prediction vs reality to reduce stockouts and overstock.

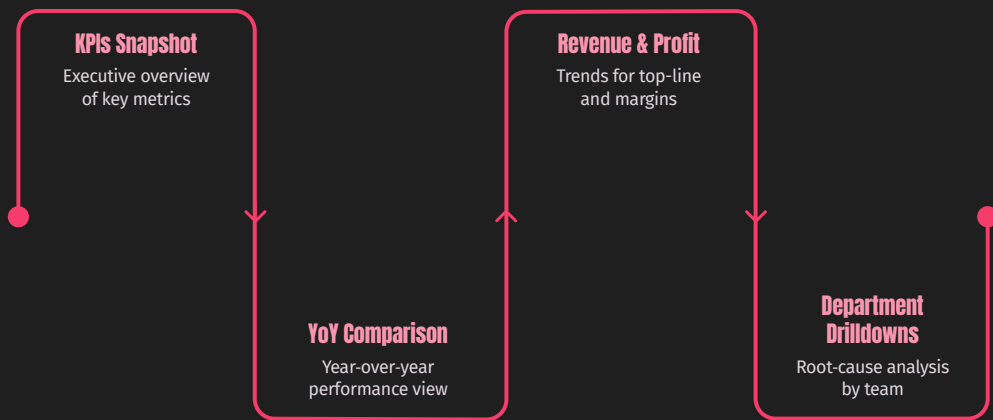

Customer Service Levels

On-time fulfilment and fill rate monitoring for customer satisfaction.

Inventory Risk

Ageing stock, critical SKUs and replenishment triggers.

Business impact: Improve planning, reduce working capital and increase operational efficiency.

This executive view surfaces organisation-level KPIs with the ability to drill into departmental detail for root-cause analysis.

Executive Dashboard & Skills Demonstrated

- Organisation-wide KPIs and YoY comparisons
- Revenue, profitability and trend monitoring
- Drill-downs into Finance, Sales, Marketing and Supply Chain

Technical & Analytical Skills

Power BI • SQL • Excel • DAX • Power Query • Data Modelling • ETL • Dashboard Design • Business Intelligence

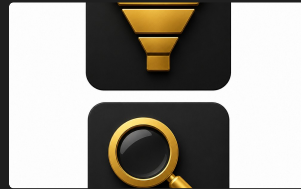

Live Dashboard

Explore the complete [Business Insights 360](#) solution via the interactive Power BI report. Use the filters to pivot by time, region, product line and customer segment.

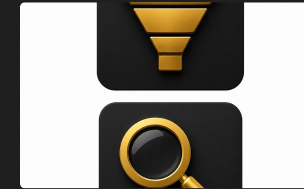

Interact with reports

Click into charts, apply slicers and export insights.

Apply filters

Customise views for each stakeholder and save bookmarks.

Discover insights

Real-time KPIs help teams act quickly on opportunities and risks.

Thank You

Thank you for reviewing **Business Insights 360**. I hope this project demonstrates my passion for solving business problems through data and analytics.
